Summary

Frontend Engineer with 2 year experience in building Shopify storefronts, React.js and Next.js applications, and full-stack web projects. Skilled in developing scalable e-commerce experiences, optimizing Core Web Vitals, integrating APIs, implementing authentication systems, and delivering responsive, accessible user interfaces. Experienced across both production client platforms and personal projects using modern JavaScript technologies.

Technical Skills

Languages: HTML, CSS, JavaScript (ES6+), TypeScript

Frontend Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Shopify Liquid.

Backend (Personal Projects): Node.js, Express.js, MongoDB

Developer Tools & Platforms: Git, GitHub, VS Code, Postman, Chrome DevTools, Lighthouse.

Experience

Associate Software Engineer — Seventh Triangle Consulting

Jan 2026 – Present

- **Titan Company Limited:** Developed and maintained international Shopify storefronts for India, UAE, USA, and Nepal. Built a centralized Consent Management API for login workflows, automated lead capture and form processing using Google Apps Script, and enhanced cart functionality across multiple e-commerce platforms. Created reusable UI components that reduced development effort by 40 percent, while ensuring responsive design, accessibility, and cross-browser compatibility.
- **OWND! – Aditya birla Brand:** Replaced Shopify's native search and filtering functionality with Boost AI Search and Discovery to address product discovery and search relevance challenges. Developed custom collection pages, search result pages, and filtering experiences using Boost APIs, enabling advanced search recommendations, dynamic filtering, and improved catalog navigation.
- **TheShopIndia – E-commerce Store:** Owned storefront reliability and monitoring; integrated Site24x7 for uptime, errors, and Web Vitals tracking, enabling proactive issue detection and faster incident resolution. Reduced recurring UI defects and improved overall performance.

Frontend Engineer — Bytecode.Agency

Sept 2024 – Oct 2025

Advantmed — Healthcare Platform

- Built secure SSO authentication flows in Next.js using protected routes, session cookies, and server-side validation, enabling role-based access control for 10k+ users.
- Implemented robust session management with React hooks and Next.js routing, reducing login failures and improving authentication reliability across devices.
- Designed reusable React components optimized for SSR and CSR, improving LCP and overall page load performance by 25%.
- Reduced unnecessary re-renders by 35% using memoization, state normalization, and render profiling, resulting in smoother UI responsiveness.
- Developed accessible, responsive interfaces following WCAG standards using Flexbox and CSS Grid, ensuring consistent UX across mobile, tablet, and desktop.

Coding & Problem Solving

Solved **270+ problems on LeetCode** with strong understanding of Data Structures and Algorithms, including arrays, hashing, two pointers, sliding window, recursion, stacks, and queues. Experienced in applying time and space complexity analysis to optimize solutions.

Education

Delhi University

Bachelor of Commerce

New Delhi, India

2021 – 2024

Coding Blocks

Data Structures, Algorithms, and Frontend Development

Noida, India

June 2023 – March 2024
