Codalien Technologies Pvt. Ltd.

Mohan Estate, Delhi

- Developed UI pages of a web application using HTML, CSS, Bootstrap
- Explored ways to visualize GitHub collaboration in a classroom setting

Projects

Portfolio | *HTML, CSS , Javascript* | [code](#)

- * **Responsive Design:** Utilized media queries and flexible layouts to ensure the website is fully responsive across various devices.
- * **Modern UI:** Designed a clean and modern user interface with CSS animations.
- * **Contact Form:** Integrated a contact form with validation to facilitate easy communication

Pastree | *React.JS , Redux , Tailwind* | [code](#)

- * **Responsive Design:** Developed a **responsive and user-friendly web app** for managing notes with a focus on **copy-paste functionality**.
- * **Modern UI:** Designed a clean and modern user interface with Tailwind Css .
- * **Tech Stack:** Utilized **React.js** for building the frontend and **Redux** for state management, ensuring smooth user interactions.

Movies-Fo | *HTML, CSS, JavaScript, ReactJS, Context API* | [code](#)

- * Widened Frontend Part of Application Using ReactJS with Context API Optimized Website Performance about 15 Percent
- * Programmed a Search System that gets data from TMDB API and displays 10 results in the form of Grid
- * Performed Routing System using Browser Router in React-Router-DOM 6 Optimizing website rather than Rendering website again and again Browser Router makes website Single Page Application
- * Increased the Website Performance around 20 Percent Using Debouncing rather than many requests it makes lesser requests to the TMDb API

Coding Skills

Platforms: Leetcode,

Achievements: Solved 250+ problems on LeetCode, Solved 100+ questions on practice assignment.

challenges: Completed 30 days coding challenge twice.

Education

Delhi University

Bachelor of Commerce

New Delhi, India

2021 – 2024

Coding Blocks

Data Structures and Algorithms

Noida, India

June 2023 – December 2023
